

## 1. IDENTIFICATION

**Product Identifier:** LAUREST® 1240

**Alternate Names:**

**Intended use:** Multifunctional cosmetic ingredient

**Manufacturer:** Copperhead Chemical Company® Inc.  
120 River Road  
Tamaqua, PA 18252 USA

**Emergency Contacts:** CHEMTREC (USA) (800) 424-9300  
CHEMTREC (International) +1 703-741-5970  
Copperhead Chemical Company® Inc. (888) 742-4506

## 2. HAZARD(S) IDENTIFICATION

**Classification of the substance or mixture:** Product is not classified as hazardous according to GHS

**GHS Label elements:** None

**GHS Precautionary Statements:** None

**Hazards Not Otherwise Classified:** None known.

### 3. COMPOSITION / INFORMATION ON INGREDIENTS

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

The product contains the following substance that has a workplace exposure limit:

Ingredient/Chemical Designations	Weight %
Glycerin (Glycerol) CAS Number: 56-81-5	Withheld

### 4. FIRST AID MEASURES

#### Description of first aid measures:

- General:** In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.
- Inhalation:** Remove to fresh air, keep patient warm and at rest. If breathing has stopped, give artificial respiration. If unconscious, place in the recovery position and obtain immediate medical attention.
- Eyes:** Irrigate copiously with clean water for at least 15 minutes holding the eyelids apart, remove contact lenses.
- Skin:** Remove contaminated clothing. Wash skin thoroughly with soap and water.
- Ingestion:** If a large amount is swallowed or adverse effects occur, obtain medical attention. Do not induce vomiting unless directed by physician.

#### Most important symptoms and effects, both acute and delayed:

- Overview:** No applicable information found
- Chronic Effects:** No applicable information found

## 5. FIRE FIGHTING MEASURES

**Extinguishing media:**

Water fog or spray, dry chemical, carbon dioxide, alcohol resistant foam (ATC type).

**Special hazards arising from the substance or mixture:**

Vapors may form explosive mixture with air.

**Hazardous decomposition products:**

High temperatures and fires may produce such toxic substances as nitrogen oxides, carbon monoxide and carbon dioxide.

**Advice for fire-fighters:**

Evacuate all non-essential personnel. Wear self-contained breathing apparatus with full face piece and protective firefighting clothing.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures:**

All operations should be performed by trained personnel familiar with the hazards and necessary precautions. Keep unprotected and unnecessary personnel from entering the area. Use appropriate safety equipment. Remove sources of ignition. Ventilate the area. Put on appropriate personal protective equipment (see section 8). Spill area may be slippery. Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing. Dispose of contaminated articles or wash them thoroughly before reuse.

**Environmental precautions:**

Do not allow spills to enter drains or waterways.

**Methods and material for containment and cleaning up:**

Large spills should be contained with a dike or a berm and can be pumped into suitable containers. Small spills should be absorbed with inert absorbent material. Do not use combustible materials such as saw dust. Scoop wetted absorbent into suitable containers. Keep containers closed and properly labeled. Wash area with water and detergent.

## 7. HANDLING AND STORAGE

### Precautions for safe handling:

All operations should be performed by trained personnel familiar with the hazards and necessary precautions. Practice reasonable care and take appropriate safety measures. Do not eat, drink, or smoke when handling. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Do not contaminate water, food or feed by storage and disposal.

### Conditions for safe storage, including any incompatibilities:

Handle containers carefully to prevent damage and spillage. Store product in a cool, dry area away from heat, sources of ignition, direct sunlight, moisture and incompatible materials. Store only in original container.

### Incompatible materials:

Strong acids, strong bases, strong oxidizers and other materials which may react with alcohols.

## 8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

**Exposure Limits:** Exposure limits for the mixture have not been assigned. Limits for substances with known exposure limits are provided as a guide.

CAS No.	Ingredient	Source	Value
56-81-5	Glycerin (Glycerol)	OSHA	TWA 15 mg/m <sup>3</sup> (total) TWA 5 mg/m <sup>3</sup> (resp)
		ACGIH	TWA: 3 mg/m <sup>3</sup> (respirable) 10 mg/m <sup>3</sup> (mist)
		NIOSH	No established RELs

### Exposure controls:

- Respiratory:** Occupation exposures from this material should be determined by individuals with experience in industrial hygiene. The selection of appropriate respiratory protective equipment should be based on results from industrial hygiene surveys and respirator manufacturer's specifications and/or recommendations.
- Eyes:** Wear chemical safety glasses, goggles or face shield appropriate for the potential exposure.
- Skin:** Use protective clothing which is appropriate for the potential exposure. Any portion of the body which may come in contact with the product should be protected by materials that are impervious to the product under the conditions of use.

**Engineering Controls:** Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of mists and any vapor below occupational exposure limits suitable respiratory protection must be worn.

**Other Work Practices:** Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Appearance</b>	Clear to opaque gel
<b>Odor</b>	No applicable information found
<b>Odor threshold</b>	No applicable information found
<b>pH</b>	5-6 at 20° C
<b>Melting point / freezing point</b>	-3.5° C
<b>Initial boiling point</b>	173° C
<b>Flash Point</b>	No applicable information found
<b>Evaporation rate (Ether = 1)</b>	No applicable information found
<b>Flammability (solid, gas)</b>	No applicable information found
<b>Upper/lower flammability or explosive limits</b>	No applicable information found
<b>Vapor pressure</b>	No applicable information found
<b>Vapor Density</b>	No applicable information found
<b>Specific Gravity</b>	1.17
<b>Solubility in Water</b>	Partially soluble
<b>Partition coefficient n-octanol/water (Log Kow)</b>	No applicable information found
<b>Auto-ignition temperature</b>	Not below 300° C
<b>Decomposition temperature</b>	No applicable information found
<b>Viscosity (cSt)</b>	7500 cps

## 10. STABILITY AND REACTIVITY

**Reactivity:** No applicable information found

**Chemical stability:** No applicable information found

**Possibility of hazardous reactions:** No applicable information found

**Conditions to avoid:** No applicable information found

**Incompatible materials:** Strong acids, strong bases, strong oxidizers and other materials which may react with alcohols.

**Hazardous decomposition products:** High temperatures and fires may produce such toxic substances as nitrogen oxides, carbon monoxide and carbon dioxide.

## 11. TOXICOLOGICAL INFORMATION

**Routes of exposure:** Skin contact, eye contact, inhalation, ingestion and injection are potential routes of exposure.

**Symptoms of exposure:** See Section 4.

**Acute toxicity:** No applicable information found

**Carcinogenic Effects:** No applicable information found

## 12. ECOLOGICAL INFORMATION

**Ecological Toxicity:** No applicable information found

**Aquatic Ecotoxicity:** No applicable information was found

**Persistence and degradability:** No applicable information found

**Bioaccumulative potential:** No applicable information found

**Mobility in soil:** No applicable information found

**Results of PBT and vPvB assessment:** No applicable information found

## 13. DISPOSAL CONSIDERATIONS

**Disposal Method:** All disposal must be in compliance with Federal, State, and Local regulations. Do not discharge effluent containing this product into any sewers, on the ground or into any body of water.

**Container Disposal:** Do not distribute, make available, furnish or reuse empty container except for storage and shipment of original product.

## 14. TRANSPORT INFORMATION

Please see the current shipping paper for the most up-to-date shipping information, including exceptions and special circumstances.

Product is not classified as hazardous material or dangerous goods according to transport regulations.

**15. REGULATORY INFORMATION**

<b>Regulatory Overview:</b>	The regulatory data in Section 15 is not intended to be all-inclusive, only selected regulations are represented.	
<b>US EPA Tier II Hazards:</b>	<b>Fire:</b>	No
	<b>Sudden Release of Pressure:</b>	No
	<b>Reactive:</b>	No
	<b>Immediate (Acute):</b>	No
	<b>Delayed (Chronic):</b>	No
<b>EPCRA 313 Toxic Chemicals:</b>	To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.	
<b>New Jersey RTK Substances (&gt;1%):</b>	Glycerol	
<b>Pennsylvania RTK Substances (&gt;1%):</b>	Glycerol	

**16. OTHER INFORMATION**

**Date Prepared:** 1/20/21

The information contained herein is believed to be accurate and represents the best information currently available to us.
